Celil Çağatay Gedik

Software Developer

Hello, my name is Celil Çağatay Gedik, I am a 19 year old Software Engineering student. In October 2022, I started developing applications and learning software on my own with Flutter and I can say that I have developed myself well in software. Now I want to embark on a new adventure and I want to move myself further in a company and my only goal is to improve myself in software and come to better places. Although I have no work experience, I think that I have developed myself well in this regard and now I want to take the next step by working in a company.

Experience

-

2022 - Present

-

-

I don't have any experiences
